

# Michael Seo

---

CONTACT INFORMATION	Personal Website: <a href="https://mikejseo.github.io">mikejseo.github.io</a>	Email: <a href="mailto:mikejseo7[at]gmail.com">mikejseo7[at]gmail.com</a>
RESEARCH INTERESTS	indirect treatment comparison, network meta-analysis, causal inference	
EDUCATION	Ph.D Biostatistics and Epidemiology, University of Bern, 2019-2022 M.A Biostatistics, Brown University (GPA: 3.6), 2015-2017 M.S Statistics, Stanford University (GPA: 3.7), 2012-2014 B.S Statistics, Graduation with High Distinction, Duke University (GPA: 3.7), 2007-2011	
EMPLOYMENT	<b>Access Evidence Lead</b> , Roche, 2022-Present <b>Ph.D Student in Biostatistics and Epidemiology</b> , Institute of Social and Preventive Medicine, University of Bern, 2019-2022 <b>Biostatistician</b> , LLX Solutions, 2018-2019 <b>Ph.D Student in Biostatistics</b> , Department of Biostatistics, Brown University, 2015-2017 <b>Quantitative Analyst</b> , In4mation Insights, 2015 Summer <b>Research Assistant</b> , Department of Statistics, Stanford University, 2014-2015 <b>Research Assistant</b> , Children's Environmental Health Initiative, Duke University, 2011-2012	
PUBLICATIONS	<b>Seo M</b> , Furukawa TA, Karyotaki E, Efthimiou O (2023). Developing prediction models when there are systematically missing predictors in individual patient data meta-analysis. <i>Research Synthesis Methods</i> , 14, 455-467. Efthimiou O, Hoogland J, Debray TPA, <b>Seo M</b> , Furukawa TA, Egger M, White IR (2023). Measuring the performance of prediction models to personalize treatment choice. <i>Statistics in Medicine</i> , 42, 1188-1206. Yoshida K, <b>Seo M</b> , Luo Y, Sahker E, Cipriani A, Leucht S, Iwatsubo T, Efthimiou O, Furukawa TA (2022). Personalized prediction of Alzheimer's disease and its treatment effects by donepezil: an individual participant data meta-analysis of eight randomized controlled trials. <i>Journal of Alzheimer's disease</i> , 89, 1143-1157. <b>Seo M</b> , Debray TPA, Ruffieux Y, Gsteiger S, Bujkiewicz S, Finckh A, Egger M, Efthimiou O (2022). Combining individual patient data from randomized and non-randomized studies to predict real-world effectiveness of interventions. <i>Statistical Methods in Medical Research</i> , 31, 1355-1373. Efthimiou O, <b>Seo M</b> , Karyotaki E, Cuijpers P, Furukawa TA, Schwarzer G, Rücker G, Mavridis D (2022). Bayesian models for aggregate and individual patient data component network meta-analysis. <i>Statistics in Medicine</i> , 41, 2586-2601. <b>Seo M</b> , White IR, Furukawa TA, Imai H, Valgimigli M, Egger M, Zwahlen M, Efthimiou O (2021). Comparing methods for estimating patient-specific treatment effects in individual patient data meta-analysis. <i>Statistics in Medicine</i> , 40, 1553-1573. <b>Seo M</b> , Furukawa TA, Veroniki AA, Pillinger T, Tomlinson A, Salanti G, Cipriani A, Efthimiou O (2021). The Kilim plot: A tool for visualizing network meta-analysis results for multiple outcomes. <i>Research Synthesis Methods</i> , 12, 86-95. Furukawa TA, Debray T, Akechi T, Yamada M, Kato T, <b>Seo M</b> , Efthimiou O (2020). Can personalized treatment prediction improve the outcomes, compared with the group average approach, in a randomized trial? Developing and validating a multivariable prediction model in a pragmatic megatrial of acute treatment for major depression. <i>Journal of Affective Disorders</i> , 274, 690-697.	

Khan MS, Khan AR, Khan AI, **Seo M**, Yasmin F, Usman MS, Moustafa A, Schmid CH, Kalra A, Ikram S (2020). Comparison of revascularization strategies in patients with acute coronary syndrome and multivessel coronary disease: A systematic review and network meta-analysis. *Catheterization and cardiovascular interventions*, 96, E447-E454.

**Michael Seo** and Christopher Schmid (2020). bnma: Bayesian Network Meta-Analysis using 'JAGS'. R package version 1.5.0. <https://CRAN.R-project.org/package=bnma>.

Robert Tibshirani, **Michael Seo**, Gil Chu, Balasubramanian Narasimhan and Jun Li (2018). samr: Significance Analysis of Microarrays. R package version 3.0. <https://CRAN.R-project.org/package=samr>.

CONTRIBUTED PRESENTATIONS Developing prediction models when there are systematically missing predictors in an individual patient data meta-analysis. Joint Statistical Meeting (JSM), Seattle; August, 2021.

bnma: Bayesian Network Meta-Analysis using 'JAGS'. Evidence Synthesis and Meta-Analysis in R Conference; January, 2021.

Predicting real world effectiveness of interventions, combining individual patient data from multiple randomized and non-randomized studies. 41<sup>st</sup> Annual Conference of the International Society for Clinical Biostatistics (ISCB), Krakow; August, 2020.

The Kilim plot: a tool for visualizing network meta-analysis results for multiple outcomes (poster). 41<sup>st</sup> Annual Conference of the International Society for Clinical Biostatistics (ISCB), Krakow; August, 2020.

Comparing methods for variable selection in individual patient data meta-analysis. XXXIst Conference of the Austro-Swiss Region (ROeS) of the International Biometric Society, Lausanne; September, 2019.

TEACHING ASSISTANTSHIP Applied Logistic Regression, University of Bern, 2021

Prognostic Research: from Basics to Modelling, University of Bern, 2020, 2021

Evidence Synthesis Methods, University of Bern, 2019

Applied Regression Analysis (PHP 2511), Brown, Spring 2016

Fundamentals of Probability and Statistical Inference (PHP 2515), Brown, Fall 2015

Probability and Statistics Inference (STAT 103), Duke, Spring 2011

Statistics (STAT 114), Duke, Fall 2010

Probability and Statistics for Engineers (STAT 113), Duke, Spring 2010

Probability (STAT 104), Duke, Fall 2009

PROGRAMMING R, Python, SAS
